<b>Office Action Summary</b>	<b>Application No.</b> 10/721,130	<b>Applicant(s)</b> KRONENBERGER, ROBERT	
	<b>Examiner</b> Khoi H Tran	<b>Art Unit</b> 3651	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 25 November 2003.
- 2a) ☐ This action is **FINAL**.                      2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Drawings***

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the central processor located at the first station for controlling the second and third locations must be shown or the feature canceled from the claims 13, 14, and 18. No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 13, 14, and 18 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter that was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The original specification is silent as to the specifics of the central processor at the first vending location being capable of controlling the vending operations of the second and/or third vending locations.

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claim 14 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is not distinct as to how the central processor at a first location would be able to track the transactions of the first and second locations, while the central processor itself is being remote from the first location.

***Claim Rejections - 35 USC § 102***

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 3651

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

7. Claims 1-6, 10-15, and 16-20 are rejected under 35 U.S.C. 102(e) as being anticipated by Leibu et al. 6,772,048.

Leibu '048 discloses a vending system per claimed invention. The system comprises plurality of vending machines wirelessly connected together. Each vending machine provides purchasing credits for user based on monetary input via credit card or cash. The credits can also be provided in the form of numeric code or coupon/vend card. Said credits provide vending action to any one of plurality of vending machines from one of the vending machines. The vending machine provides return credit to the customer's account if the vended product is less than the available credit provided by the user.

In regards to the method claims 16-20, usage of Leibu '048 system anticipates all claimed method steps.

8. Claims 1-12, 16, and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Tran et al. 5,440,108.

Tran '108 discloses a vending system per claimed invention. The system comprises at least a vending machine for vending plurality of products having different prices. The vending machine also provides vend cards. The credits on each of the vend cards can be purchased or added via credit card or cash. The vend card provides access and vend authorization to said vending machine or any other vending machines that were designed to accept the vend card.

In regards to the method claims 16 and 20, usage of Tran '108 system anticipates all claimed method steps.

9. Claims 1-5, 11-13, 15-17, 19, and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Nakajima et al. 6,430,470.

Nakajima ' 470 discloses a vending system per claimed invention. The system provides vending of articles via cellular phones.

***Claim Rejections - 35 USC § 103***

10. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

11. Claims 7-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Leibniz et al. 6,772,048 in view of Tran et al. 5,440,108.

In regards to claim 7, Leibus '048 discloses all elements per claimed invention as explained in paragraph 7 above. However, it is silent as to the specifics of buying credits being added to the coupon/vend card or a user's account.

Tran '108 discloses a vending system as explained in paragraph 8 above. Tran '108 teaches that buying credits to an account can be provided, via credit card or cash, at the vending machine.

It would have been obvious for a person with ordinary skill in the art, at the time the invention was made, to have provided to Leibus '048 vending machine with the capability of adding additional buying credits to the coupon/vend card or a user's account because it provides additional buying credits to user's account, as taught by Tran '108.
